Changing your future...

ABOUT US

Together Abroad sets a bridge in the Dutch labour market for both international professionals and companies.

We mainly provide tailored HR solutions in English for international professionals who barely speak Dutch and aren't able to understand all the clauses of HR contracts and forms.

At the same time we give assistance with HR policies to international companies settled or in the process of settling in the Netherlands.

We offer a variety of services tailored to your specific needs:

Forms and letters

- Job descriptions
- Performance appraisal/ employee orientation
- Contracts
- Staff book/ employee handbook
- Hiring policies
- Surveys and questionnaires
- Job-board

In addition, we can offer you the ultimate networking experience. Our events bring employers and job-seekers together in a very informal atmosphere. You will be able to meet prospective candidates and discuss about possible opportunities at your company first-hand.

In order to be successful an international oriented company is constantly in need of qualified multi-lingual personnel. Where to find these professionals?

Together Abroad is launching an international job-board which is connected to Google, LinkedIn, Facebook and other social and professional networks.

This innovative job-board allows companies to place their multilingual vacancies and to select directly their candidates. But what's more important, companies have access to all around information on the candidates including, their references, interests, groups they are associated with, and much more.

It is a very unique way to select your own staff and to promote your company within professional circles.

Together Abroad will facilitate interactive online interviews, video pre-selections, and promotional videos of companies and candidates.

How could you better save your time and money?

Our job-board is:

- International
 - Interactive
 - Creative
 - Network-oriented
- ...and so much more!
